

**Ontario Snowboard  
2022 Treasurer's Report**

January 10, 2023

Ontario Snowboard remains in a solid financial position. The Association held a number of competitive events throughout the year which put our revenues and expenses more in line with traditional levels seen before Covid-19 provincial interruptions the prior year.

We received just over 330k in provincial government funding including our base funding which remained at \$103k as well as Covid Relief Club Funding of over \$63k and Sport Priority of \$164k.

Our administrative expenses remain under tight control, we saw an increase due to overall increase in costs being experienced.

We continue to plan for the 2023 season and are confident that we can continue with training and competition opportunities to all our athletes.

Elaine Kilmer-Choi  
Treasurer  
Ontario Snowboard
