

2021-2022 Volunteer Bond Program

Introduction

Many of our members are unaware of just how much volunteer work is necessary to execute the Speed Series Events. For example, it takes a minimum of 12 – 18 volunteers on hill each day of training and racing to execute a speed series event.

The Volunteer Bond Program was introduced in 2018 to encourage members to step forward and get involved, keep registration fees as low as possible and not rely on the same volunteers for every event which could result in volunteer burn out. Without the help of volunteers, the cost to operate the Speed Series Events would be substantially higher.

Although we have had some success in the past, we still had to hire on hill staff to ensure that the events were executed

Purpose

The Purpose of the Volunteer Bond Program is to encourage members to become actively involved in the operation and success of the Speed Series.

In order to continue to provide a safe, competitive environment to our members we will be requiring either a time or financial commitment from each family, formally referred to as the “Volunteer Bond Program”.

History

The concept of a volunteer deposit is not unique in the sport or snowboarding world, Quebec Snowboard requires a \$350 deposit. This is done in the form of a postdated cheque. If the required numbers of hours are not met, the cheque is cashed. Steamboat springs requires a \$500 deposit that is refunded on a prorated basis for the number of hours worked.
